

## 6330

### 18 GAUGE NIBBLER

## FEATURES & SPECIFICATIONS

- 2,500 stroke/minute motor provides fast cutting action in steel up to 18 gauge
- Small cut allowing clean cuts in tight corners
- The “over sized” anvil and punch dramatically increase reliability of these high wear parts
- Includes an additional punch
- Composite handle and throttle lever design provide comfortable and convenient operation
- The rotational 360° rear exhaust muffler allows exhaust air to be directed as preferred
- Precision engineered components make this tool suitable for high volume
